Fatliquors

Rockol LNE-918

H.S Code:3403.19

Rockol LNE-918 is a multi-purpose fatliquoring agent based on synthetic and natural condensated oils which can be used single or in combination with other fatliquors in any type of leather manufacturing. It has excellent light fastness property.

Properties:

Appearance : Clear transparent brown liquid

Nature: Condensation of synthetic and natural oils

Viscosity @25° : 200-500 cps.

Ionity : Anionic

pH (1:10 solution) : 6.5 - 7

Safety: Please refer to MSDS

Storage Conditions: Store in a cool, dry, well-ventilated area (15 – 25 °C), out of direct sunlight.

Packing : 100 and 200 Kg PE drums

Applications & Recommendation

Rockol LNE-918 has a very good softening effect and imparts a very soft mellow handle to leather. This product gives a silky handle to any type of leather and has excellent light fastness and buffing effect.

Rockol LNE-918 is specially recommended for Nappa, upholstery, softy and other soft leathers where the softness and feel is an important factor. The dosage of consumption varies with the type of leather and is 2-10% (based on shaved weight in retanning).

Stability

Acetic acid	Excellent
Formic acid	Excellent
Sulphuric acid	Fair
Sodium bicarbonate	Good
Ammonia	Excellent
Sodium chloride	Good
Chromium salt	Good

NOTE: According to our best knowledge and technical experiments, the above data is true and accurate. Regarding to variety of consumption procedures, it is recommended to evaluate the information before use.
